

Show Cattle Supplement

- Contains a unique blend of direct fed microbials (probiotics)
- This combination of beneficial bacteria and chelated minerals support peak genetic performance
- Aggressive appetite
- Reliable intake
- Reduces digestive upset
- Improves fiber digestion
- Better health to combat travel and show stress

CAUTION:
Contains added copper. **NOT for use in Sheep**

Full Tank

FULL Tank is a nutritional product designed to increase the capacity of the stomach or rumen.

- Useful when intake is restricted to limit weight gain.
- When limit-feeding, adding FULL Tank maintains "gut fill" and keeps the fresh, expanded look.
- Reduces the stress level and hard look associated with a low feed intake.
- Contains a probiotic to aid digestive function.
- FULL Tank is pelleted and works best when fed dry.
- FULL Tank expands more than beet pulp and will retain more water than beet pulp.

in motion

inMotion is a natural source of Glucosamine and Chondroitin Sulfate

- A nutritional supplement designed as a joint hoof and skin conditioner.
- For maintenance levels, feed cattle 16 oz/head/day
- Contains a complete collagen matrix.
- Specifically designed with micro-nutrients to allow excellent digestive processing and absorption to help in the rebuilding of joint tissues.
- Can also be of benefit to swine, sheep and goats

Cattle POWER UP

Cattle POWER UP assists show cattle that need of more energy and fatty acids to increase bloom, haircoat and cover.

- Cattle POWER UP is formulated with "Rumen Bypass" technology resulting in the fat sources to "bypass" the rumen for more efficient absorption in the small intestine.
- Contains high quality vegetable oil sources that provide higher levels of Omega 3 and Omega 6 fatty acids.
- Improved bloom, hair coat, skin condition.
- Improved palatability and utilization to allow quicker change in animal's composition.
- Easy blending into texturized, pelleted or meal feeds.
- Feed 1/2 - 2 lbs per head daily

Show Cattle EXPLOSION

For Feedlot Beef Cattle

For increased rate of weight gain, improved feed efficiency and increased carcass leanness in cattle fed in confinement for slaughter during the last 28 to 42 days on feed.

ADVANTAGES:

- Provides a convenient method to use Optiflexx™ to show calf rations.
- Added whey, milk and barley.
- 7.5% fat
- Optiflexx may improve ribeye area up to 1/2" (Elanco research findings)
- Add to current ration
- One 30 lb. bucket will feed one steer at 3/4 lb per day for 40 days.
